

Resolution 1958-03

The Mayor then stated that the sole matter for consideration at this meeting was a resolution adopted by the Municipal Planning Commission of the City of Belle at a meeting held on June 23, 1958, regarding the study of the feasibility of installation of sewers to serve the area of the Nashville Suburban Utility District and particularly the City of Belle Meade. The Mayor then asked the City Attorney to read to the meeting the resolution adopted by the Municipal Planning Commission at its meeting of June 23, 1958, which was done as follows:

"BE IT RESOLVED by the Municipal Planning Commission of the City of Belle Meade that it does hereby recommend to the Board of Commissioners of said City that it request the Nashville Suburban Utility District to make a study of the need for, the problems involved in and the feasibility of providing sewers for the area served by said Utility District;

"AND FURTHER RESOLVED that it is recommended that the Board of Commissioners make available to the said Nashville Suburban Utility District, the engineering report, files and other information of the City

"concerning the subject upon which study is requested, and that the City give the District full cooperation in furtherance of this project."

Thereupon, following discussion, upon motion duly made, seconded, and voted upon, the following resolution was adopted:

WHEREAS, the Board of Commissioners of the City of Belle Meade has considered the recommendation of the Municipal Planning Commission of the said city regarding a request to be made to the Nashville Suburban Utility District for a study of the feasibility of the installation of sewers to serve the area of the said Utility District and particularly the City of Belle Meade; and

WHEREAS, the Board of Commissioners is of the opinion that said recommendation is proper;

NOW, THEREFORE, BE IT RESOLVED, by the Board of Commissioners of the City of Belle Meade that it does hereby request that the Nashville Suburban Utility District make a study of the need for, the problems involved in and the feasibility of providing sewers for the area served by said Utility District of which said City is a part; and

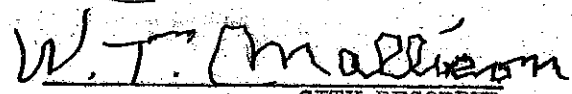

FURTHER RESOLVED that the engineering report, files and other information upon the subject now held by the City be made available to the Utility District; and

FURTHER RESOLVED that the Mayor of the City of Belle Meade be and is authorized to take such action in furtherance hereof as he may deem proper.

MAYOR

VICE MAYOR

COMMISSIONER

CITY RECORDER

Date of Adoption:
June 24, 1958
