

**CITY OF BELLE MEADE
CERTIFICATE OF APPROPRIATENESS APPLICATION**

The protection and preservation of the City’s heritage is now a guiding principle for residents and City leaders. The City’s commitment to its heritage supports these objectives:

- Preserve the architectural and historical character of Belle Meade’s significant historic properties.
- Encourage development that is compatible with the character of the City’s historic architecture.
- Conduct project review to assist property owners to be good stewards and utilize best practices for their properties.
- Expect that builders, developers and architects will respect the traditional architectural character of Belle Meade and design new construction of the *highest* possible quality.

This CoA Form coincides with the Citywide Conservation Overlay Interim Guidelines. Please refer to the guidelines for the Certificate of Appropriateness process, and flowchart at citybellemeade.org.

1. This form must be filled out completely and the fees paid before the application will be accepted and placed on the City of Belle Meade Historic Zoning Commission agenda.
Additions/Renovations - \$250.00 New Construction - \$400.00
2. Deadline for the application submittal is fifteen (15) days prior to the meeting, amendments to submitted plans after the deadline will **not** be accepted. Regular meetings of the Historic Zoning Commission are held on the Second Tuesday of each month at 3:00 p.m. at Belle Meade City Hall, 4705 Harding Road, Nashville, TN 37205
3. The applicant, owner, or representative must attend the meeting in which the application is being reviewed. If there is no one present the application will not be considered for a Certificate of Appropriateness.
4. Each applicant and comments from the public will have five (5) minutes to present the proposed project to the Commission. It should be concise and to the point.

Property of Significance

Properties of significance are those which are of particular architectural or historical significance to the early 20th century growth and development of Belle Meade. Significant dwellings, buildings and structures in Belle Meade are defined as follows:

Generally, these will be properties built prior to 1939 although there may be some properties which meet this level of significance after this date.

Possess integrity of design, materials, workmanship, setting, location, feeling, and association, as defined for eligibility for listing in the National Register of Historic Places.

Embody such other qualities and characteristics as in the judgment of the HZC should be considered significant to the historical and architectural context of Belle Meade.

Be listed or determined eligible for listing in the National Register of Historic Places, and/or be determined to be a contributing property to an eligible historic district in the National Register of Historic Places; and,

Possesses one or more of the following criteria:

- | Yes | No | |
|-----|-----|---|
| [] | [] | A broad cultural, political, economic, or social association with the historic development of Belle Meade, the state, or the nation, and/or; |
| [] | [] | Identification with a historic person or with important events in Belle Meade, state, and/or national history, and /or; |
| [] | [] | Possesses distinguishing characteristics of an architectural type reflective of the dominant styles in Belle Meade and is inherently valuable for the study of a period, style, method of construction, or use of indigenous materials or craftsmanship, and/ or; |
| [] | [] | Possesses authenticity of its period of significance as evidenced by the survival of its characteristics, historic fabric, and architectural elements from that period; and/or |
| [] | [] | Is a notable work of a master builder, designer, or architect, and/or; |
| [] | [] | Possesses or may likely yield information important in prehistory or history, and/or |
| [] | [] | Possesses other qualities and characteristics that, in the judgment of the HZC should be considered for designation as a significant property. |

In most cases the HZC discourages the demolition of a property of significance. Additions to properties of significance may be allowed if the addition is of appropriate scale and placement on the property. Criteria for demolition and additions to significant properties are outlined in the design guidelines.

Property Worthy of Conservation

Properties worthy of conservation are those which were built from the mid- to late-20th century and reinforce the historical and architectural character of Belle Meade through their design, scale, and materials. Properties worthy of conservation in Belle Meade are defined as follows:

- Generally, these will be properties built after 1939 although there may be some properties within this category which were built prior to this date.
- Possess integrity of design, materials, workmanship, setting, location, feeling, and association from their original period of construction.
- Be determined to be a contributing property to an eligible historic district in the National Register of Historic Places.

In most cases the HZC will encourage the preservation of properties worthy of conservation. Properties worthy of conservation which are proposed for demolition or substantial additions will be reviewed by the HZC in order to identify alternatives which meet the property owner's requirements while preserving the integrity of the property. If no such alternatives are identified properties worthy of conservation may be demolished or receive additions in accordance with the design guidelines.

Appeals Process for Decisions by the City of Belle Meade Historic Zoning Commission: Anyone who may be aggrieved by any final order or judgement of the Commission may have such order or judgement reviewed by the courts, by the procedure of statutory certiorari, in the Davidson County Chancery Court. Such party shall, within sixty (60) days for the entry of order, file a petition with the Chancery Court.

I have read and understand the information provided in this application and the Historic Zoning Overlay Design Guidelines concerning the Property of Significance and Property of Conservation and the process for design and the obtainment or denial of a Certification of Appropriateness (COA).
